## **NPSWU MEDIA STATEMENT**

NPSWU strongly condemns the withdrawal of funds which ought to have assisted with improvement of workers salaries and was allocated to other projects like agricultural related businesses.

The public servants cannot be held liable for failure of the government of the day to safe-guard people's money against its own corrupted officials who are stealing public funds.

NPSWU rejects this motion and asks that the Government respect the works enough to not take their salary as they are the engine of this country.
