As NPSWU would like to pass our condolences to all the families that lost their loved ones on the Phoenix Massacre. It is with heavy heart that we attest such racial tensions in our democratic dispensation, where the Black indigenous people are butchered like animals in a game reserve. This proves that we had a failed process of Reconciliation that was carried out during President Mandela era, where some politicians scored political goals and pretending as the unifiers under the guise of "Rainbow Nation". As NPSWU we stand against any loss of life. We demand our government to bring into books all the culprits of Phoenix Massacre and we stand against any vigilantism that we have witnessed in the past few weeks, where we saw members of different races becoming the law unto themselves. We reiterate the same words that are saying "BLACK LIFE MATTERS". We urge our government to do everything to level the playing field, so the Black Natives will also be beneficiaries of the democracy that they fought for. To all the workers and Black Communities, the Struggle Continues. NPSWU as one of the old Workers Organizations will never retreat nor surrender in our fight for the economic and political emancipation of a Black Child of this Country.

AMANDLA!!!!!!
